Subject Index

Abbreviations: (A) Abstract, (CR) Case Report, (LE) Letter to the Editor, and (TP) Technical Procedures.

ASD, atrial septal defect; AV, atrioventricular; CHD, congenital heart disease; CV, cardiovascular; LA, left atrium; LCA, left coronary artery; NMR, nuclear magnetic resonance; PDA, persistent or patent ductus arteriosus; PS, pulmonary stenosis; RA, right atrium; RV, right ventricle or right ventricular; SVC, superior vena cava; TGA, transposition of the great arteries; VSD, ventricular septal defect.

Abdominal compression, hemodynamic effects of; 180 (A)
Accelerated ventricular rhythm in myocarditis; 178 (LE)
Adams-Stokes attack; 177 (LE)
AIDS cardiomyopathy in infancy; 184 (A)
Anatomic correction for TGA; 1
Anemia, sickle-cell, hemodynamic response to exercise in; 141
Anerobic threshold and training target heart rates in premenarchal girls; 75
Angiographic correlation in critical aortic valve stenosis; 186 (A)
Angiography in the diagnosis of aortico-right ventricular tunnel and PS; 99 (CR)
Annulus, aortic valve, with fixed subaortic stenosis; 195
Anomalous pulmonary venous connection, atypical total; 115 (CR)
Aorta to right atrium congenital fistulous tract; 93 (CR)
Aortic,
  atresia with situs inversus and mirror-image dextrocardia; 232 (CR)
  Doppler flow velocity; 179 (A)
  growth assessment by echocardiography in human fetuses; 61
  root dilation associated with partial trisomy 7 (q31.2→qter); 53 (CR)
  stenosis, Holter monitoring for myocardial ischemia in; 186 (A)
  stenosis, prevalence, seasonal variation, sex distribution and survival of; 186 (A)
  stenosis, second operation for; 187 (A)
  stenosis, valvar, fate of; 187 (A)
  stenosis, valvar, left ventricular function after balloon valvuloplasty; 187 (A)
  valve annulus, small, with fixed subaortic stenosis; 195
  valve stenosis, critical; 186 (A)
Aortico-left ventricular tunnel, echocardiographic diagnosis of 180 (A)
Aortico-right ventricular tunnel and pulmonary stenosis; 99 (CR)
Aorto-pulmonary window, surgical closure of; 166 (CR)
Arrhythmia, ventricular, after tetralogy of Fallot repair; 188 (A)
Arteriopathy, occlusive infantile, computerized tomography in; 221 (CR)
Atresia, complex pulmonary, long-term survival in; 188 (A)
Atrial,
  natriuretic peptide in aortic and pulmonary stenosis; 185 (A)
  natriuretic peptide in tachycardia; 184 (A)
  septal defect, sinus venosus, stenosis after repair; 49 (CR)
Atrioventricular,
  conduction defect, hereditary; 37 (CR)
  septal defect with double-outlet RA; 170 (CR)
  septal defects assessed by MRI; 181 (A)
  valve regurgitation, persistent after transient myocardial ischemia; 191
Autograft for aortic stenosis; 187 (A)

Balloon dilation, percutaneous, in Fallot's tetralogy; 185 (A)
  valvuloplasty, atrial natriuretic peptide during; 185 (A)
Beckwith-Wiedemann syndrome, reversible obstructive hypertrophic cardiomyopathy in; 225 (CR)

Cannulation, coronary sinus, via the femoral vein; 91 (TP)
Cardiac,
  failure in infants with VSD, effects of digoxin; 184 (A)
  growth and human cytochrome c oxidase; 212
  index, assessment by aortic Doppler flow velocity; 179 (A)
  metabolism, developmental, in health and disease; 150 (R)
  surgery, major, cerebral perfusion during; 57 (LE)
Cardiomyopathy, AIDS, in infancy; 184 (A)
  dilated, immunologic and genetic studies in; 184 (A)
  obstructive hypertrophic, in Beckwith-Wiedemann syndrome; 225 (CR)
Cardiopulmonary bypass, nitroprusside after; 121

Cardiovascular anomalies, complex congenital, diagnosed by continuous-rotation computed tomography; 65
Catheter closure of PDA, pseudo-coarctation after; 186 (A)
Cerebral perfusion during major cardiac surgery; 57 (LE)
CHD with pulmonary hyptertension (lung biopsy); 181 (A)
Children, live-born, heart disease in; 205
Chromosome 18, deletion of short arm of, and heart disease; 174 (CR)
Color Doppler and continuous wave Doppler for estimating right ventricular pressure; 179 (A)
Computerized tomography in occlusive infantile arteriopathy; 221 (CR)
Conduction defect, hereditary atrioventricular; 37 (CR)
Conduits, systemic venous ventricle to pulmonary artery, assessed by MRI; 181 (A)
Congenital atresia of left coronary ostium; 159 (CR)
cardiovascular anomalies, complex, diagnosed by continuous-rotation computed tomography; 65
heart defects with pulmonary hypertension, classification; 180 (A)
heart disease,
cyanotic, surgically treated, increased ventilatory response to exercise in; 182 (A)
diagnosed by gated MRI; 181 (A)
growth and nutritional intake of infants; 17
surgically treated, lung function in; 182 (A)
with and without pulmonary hypertension, lung mechanics in; 182 (A)
with right-to-left shunt, pulmonary function in; 182 (A)
Coronary
artery, left acute angular origin of; 39 (CR)
artery, left anterior descending, bilateral origin of; 163 (CR)
ostium, left, congenital atresia of; 159 (CR)
sinus cannulation via the femoral vein; 91 (TP)
Cyanosis due to pulmonary artery to LA fistula; 216 (CR)
Cytochrome c oxidase, human, during growth and development; 212

Deletion of short arm of chromosome 18 and heart disease; 174 (CR)
Dextrocardia, mirror-image, and aortic atresia with situs inversus; 232 (CR)
Dialysis, peritoneal, after open heart surgery; 125
Digital functional imaging for classifying pulmonary hypertension in CHD; 180 (A)
Digoxin in infants with VSD and cardiac failure; 184 (A)
Dilated cardiomyopathy, immunologic studies in; 184 (A)
Doppler,
echocardiographic diagnosis of aortico-left ventricular tunnel; 180 (A)
echocardiography for measuring haemodynamic effects of abdominal compression; 180 (A)
estimation of pressure gradient in pulmonary stenosis; 145
Double-outlet right atrium, with atrioventricular septal defect; 170 (CR)
Ductus arteriosus,
patent, pseudo-coarctation after catheter closure of; 186 (A)
persistent, percutaneous closure of; 185 (A)

Echo Doppler assessment of fixed subaortic stenosis; 179 (A)
Echocardiographic,
assessment of aortic growth in human fetuses; 61
diagnosis of aortico-right ventricular tunnel and PS; 99 (CR)
Echocardiography, M-mode, for monitoring heart transplant; 180 (A)
Eisenmenger syndrome, effects of Nifedipine in; 183 (A)
Electrocardiographic abnormalities after transient myocardial ischemia of the newborn; 191
Endocardial pacing, long term results in children; 183 (A)
Exercise,
ability, impaired, after Mustard's operation for TGA; 188 (A)
hemodynamic response to, in Sickle cell anemia; 141
increased ventilatory response to in cyanotic CHD surgically treated; 182 (A)

Fallot's tetralogy, see Tetralogy of Fallot
Fetuses, human, growth retarded and normal, echocardiographic assessment of aortic growth in; 61
Fistula, vertebral-jugular; 229 (CR)
Fistulous tract, congenital, between the aorta and right atrium; 93 (CR)
Flow velocity, aortic, measured by Doppler; 179 (A)
Fontan operation for tricuspid atresia; 183 (A)

Gated MRI in diagnosis of CHD; 181 (A)
Genetic studies in children with dilated cardiomyopathy; 184 (A)
Great arteries, transposition of, anatomic correction for; 1
Growth and nutritional intake in congenital heart disease; 17

Heart,
disease, associated with deletion of short arm of chromosome 18; 174 (CR)
disease, prevalence, treatment, and outcome of; 205
disease, rheumatic, valve replacement in; 199
disease, suspected, over-the-telephone diagnosis of, in neonates; 183 (A)
failure due to aorta to right atrium fistula; 93 (CR)
rates, training target, and anerobic threshold in premenarchal girls; 75
transplant, monitored by M-mode echocardiography; 180 (A)
Hemodynamic,
effect of Nifedipine in Eisenmenger syndrome; 183 (A)
effects of abdominal compression; 180 (A)
effects of sodium nitroprusside in VSD; 59 (LE)
response to exercise in sickle-cell anemia, 141
Hepatoma with right atrial extension; 236 (CR)
Hereditary atrioventricular conduction defect; 37 (CR)
Holter monitoring for myocardial ischemia in aortic stenosis; 186 (A)
Homograft,
for aortic stenosis; 187 (A)
iliac artery as graft replacement; 113 (CR)
Hypertrophic cardiomyopathy, obstructive, in Beckwith-Wiedemann syndrome; 225 (CR)
Hypoplastic left heart syndrome; 129
with left-atrial thrombus, 105 (CR)

Iliac artery, homograft, as graft replacement; 113 (CR)
Immunologic and genetic studies in dilated cardiomyopathy; 184 (A)
Impaired exercise ability after Mustard's operation, factors contributing to; 188 (A)
Infant with congenital heart disease, growth and nutritional intake of; 17

Left,
anterior descending coronary artery, bilateral origin of; 163 (CR)
atrial thrombus in hypoplastic left heart syndrome; 105 (CR)
atrium to pulmonary artery fistula; 216 (CR)
coronary artery, angular origin from aorta; 39 (CR)
coronary artery to RV fistula diagnosed by NMR; 45 (CR)
coronary ostium atresia; 159 (CR)
heart, hypoplastic, syndrome; 129
ventricular failure due to acute angular origin of LCA; 39 (CR)
ventricular function before and after balloon valvuloplasty for aortic stenosis; 187 (A)
Longitudinal psychological assessment in tetralogy of Fallot; 135
Lung,
biopsy in children with CHD and pulmonary hypertension; 181 (A)
function in surgically treated CHD; 182 (A)
mechanics in CHD with and without pulmonary hypertension; 182 (A)

Magnetic resonance imaging of conduits; 181 (A)
Metabolism, developmental cardiac, in health and disease; 150 (R)
Morphologic findings in critical aortic valve stenosis; 186 (A)
MRI,
gated, diagnosis of CHD; 181 (A)
in atrioventricular septal defects; 181 (A)
Myocardial ischemia,
Holter monitoring for, in aortic stenosis; 186 (A)
of the newborn and persistent AV valve regurgitation; 191
transient, of the newborn; 191
Myocarditis in neonate with accelerated ventricular rhythm; 178 (LE)

Naito's criteria for outflow tract reconstruction in tetralogy of Fallot; 187 (A)
Neonatal heart disease diagnosed over the telephone; 183 (A)
Nifedipine, hemodynamic effects of, in Eisenmenger syndrome; 183 (A)
Nitroprusside, sodium, hemodynamic effects of; 59 (LE)
Nuclear magnetic resonance in diagnosis of LCA-RV fistula; 45 (CR)
Nutritional intake and growth of infants with congenital heart disease; 17

Obstructive hypertrophic cardiomyopathy, reversible, in Beckwith-Wiedemann syndrome; 225 (CR)
Open heart surgery in the first 24 hours of life; 33

Pacing, endocardial, long term results in children; 183 (A)
Peptide, atrial natriuretic,
in aortic and pulmonary stenosis; 185 (A)
in tachycardia; 184 (A)
Perfusion, cerebral, during major cardiac surgery; 57 (LE)
Perigraft seroma, recurrent, treated by graft replacement; 113 (CR)
Peritoneal dialysis after open heart surgery; 125

Persistent ductus arteriosus, percutaneous closure of; 185 (A)
Premenarchal girls, anerobic threshold and training target heart rates in; 75
Pressure gradient, pulmonary stenosis by Doppler; 145
Prevalence of heart disease; 205
Pseudo-coarctation after catheter closure of PDA; 186 (A)
Psychological assessment, longitudinal, in tetralogy of Fallot; 135
Pulmonary,
atresia, complex (long-term survival); 188 (A)
function in CHD with right-to-left shunt; 182 (A)
hypertension in CHD (lung biopsy); 181 (A)
hypertension in CHD, classification by digital functional imaging; 180 (A)
hypertension in CHD, lung mechanics in; 182 (A)
outflow tract, balloon dilation of, in Fallot's tetralogy; 185 (A)
stenosis, critical and aortico-right ventricular tunnel; 99 (CR)
stenosis, Doppler estimation of pressure gradient in; 145
stenosis, type of, and ventricular septum in TGA; 11
to LA fistula; 216 (CR)
valvuloplasty, percutaneous; 185 (A)
vascular sling: seven cases; 81
venous collaterals in SVC stenosis; 49 (CR)
venous connection, atypical total anomalous; 115 (CR)
venous obstruction from left-atrial thrombus; 105 (CR)

Radionuclide,
evaluation of RV wall motion in tetralogy of Fallot; 25
measurement of cardiac flow; 179 (A)
Regurgitation, atrioventricular valve, after myocardial ischemia of newborn; 191
Rheumatic heart disease, valve replacement in; 199
Right atrial metastasis from hepatoma; 236 (CR)
Right atrium, double-outlet, with atrioventricular septal defect; 170 (CR)
Right outflow tract reconstruction in tetralogy of Fallot; 187 (A)
Right ventricle, systemic, systolic function in; 189 (A)
Right ventricular,
LCA fistula diagnosed by NMR; 45 (CR)
pressure in VSD by Doppler; 179 (A)
wall motion after surgery of tetralogy of Fallot; 25

Septal defect, atrioventricular, with double-outlet RA; 170 (CR)
atrioventricular, assessed by MRI; 181 (A)
Seroma, recurrent, perigraft, treated by graft replacement, 113 (CR)
Sickle-cell anemia, hemodynamic response to exercise in; 141
Signal-averaging and programmed ventricular stimulation in Tetralogy of Fallot; 188 (A)
Sinus venosus ASD with right-to-left shunting; 49 (CR)
Situs inversus and aortic atresia with mirror-image dextrocardia; 232 (CR)
Sodium nitroprusside, hemodynamic effects of; 59 (LE)
Stokes-Adams attack; 177 (LE)
Subaortic stenosis, fixed,
and small aortic valve annulus; 195
assessed by echo Doppler; 179 (A)
Superior vena cava stenosis with pulmonary venous collaterals; 49 (CR)
Surgery, open heart,
in the first 24 hours of life; 33
peritoneal dialysis after; 125
Surgical closure of aorto-pulmonary window; 166 (CR)
treatment of congenital atresia of left coronary ostium; 159 (CR)
Survival, after palliative surgery for hypoplastic left heart syndrome; 129
Systolic function in systemic right ventricle; 189 (A)

Tachycardia, atrial natriuretic peptide in; 184 (A)
Telephone diagnosis of neonates with suspected heart disease; 183 (A)
Tetralogy of Fallot,
longitudinal psychological assessment in; 135
palliation of, by balloon dilation; 185 (A)
postoperative, and ventricular stimulation; 188 (A)
right outflow tract reconstruction in; 187 (A)
right ventricular wall motion after surgery for; 25
TGA, Mustard's operation for, factors of impaired exercise ability; 188 (A)
Thiocyanate toxicity of nitroprusside after cardiopulmonary bypass; 121
Thrombotic lesions of the tricuspid valve; 109 (CR)
Tomography,
computerized, in occlusive infantile arteriopathy; 122 (CR)
continuous-rotation computed, in diagnosis of complex congenital CV anomalies; 65
Total anomalous pulmonary venous connection, atypical; 115 (CR)
Toxicity, thiocyanate, due to nitroprusside after cardiopulmonary bypass; 121
Transposition of the great arteries,
anatomic correction for; 1
types of pulmonary stenosis and ventricular septum in; 11

Tricuspid,
atresia, fate of patients with; 183 (A)
valve, thrombotic lesions of; 109 (CR)
Trisomy 7 (q31.2→qter), partial, aortic root dilation associated with; 53 (CR)
Tunnel, aortico-left ventricular, diagnosed by echo; 180 (A)
Two-dimensional,
echo diagnosis of aortico-left ventricular tunnel; 180 (A)
echocardiography for assessing systemic systemic venous ventricle to pulmonary artery conduits; 181 (A)

Valvar aortic stenosis, fate of; 187 (A)
Valve replacement in rheumatic heart disease; 199
Valvuloplasty, pulmonic, percutaneous; 185 (A)
Vascular sling, pulmonary; 81
Ventilatory response exercise in surgically treated cyanotic CHD; 182 (A)
Ventricular,
arrhythmias after tetralogy of Fallot repair; 188 (A)
failure, left, due to acute angular origin of LCA; 39 (CR)
function, left, and balloon valvuloplasty in aortic stenosis; 187 (A)
rhythm, accelerated, in myocarditis; 178 (LE)
septal defect, large, hemodynamic effects of sodium nitroprusside in; 59 (LE)
septal defects, effects of digoxin in; 184 (A)
septum and types of pulmonary stenosis in TGA; 11
stimulation, signal-averaging in programmed, in postoperative tetralogy of Fallot; 188 (A)
Vertebral-jugular fistula, congenital; 229 (CR)

Window, aorto-pulmonary, surgical closure of; 166 (CR)
